**DECLARATION OF CONFORMITY**

**For Materials and Articles in Contact with Food**

Hereby we the Company under the name INTERTAN S.A., based in Greece (Nea Lampsakos – Evia), which imports in Greece Pizza boxes as final products intended to come into contact with food, with the following **Products at the annex *:**

**Declares that** the products, as our supplier declares, comply with the requirements and provisions of the following Regulations including all their amendments regarding (food) contact:

- Regulation 1935/2004/EC of the European Parliament and of the European Council on materials and objects intended to come into contact with food.
- Commission Regulation (EC) No 2023/2006 on good practice for the export of materials and objects that are intended to come into contact with food.
- Greek Food and Beverage Code articles 9,21 and 24.
- European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste.

Products placed on the market before 12 August 2026 comply with the legislative requirements applicable at the time they were first placed on the market. Products that are or will be placed on the market from 12 August 2026 onwards comply with the restrictions of PPWR Regulation EU 2025/40, as far as PFAS are concerned, as well as the metal concentration limit as defined in Article 5 of the regulation.

- Products that have been placed on the market before 20/07/2026 comply with the requirements of the legislation as was in force before this date. After 20/07/2026, products comply with the restrictions of Regulation EU 2024/3190.
- The above products (when they are FSC as it is defined at the FSC product code description at the annex) are coming from responsibly managed forest according to FSC – Chain of Custody (Certification Code of INTERTAN S.A. TAH-C0C-004486).

**Recommended Usage:**

| | |
|---|---|
| **TYPES OF FOOD WITH WHICH CONTACT IS PERMITTED:** | Suitable for contact with non-liquid foods with low fat content. For short-term use only. Visible grease marks may be expected during use. |
| **TIME AND TEMPERATURE OF INTENDED USE:** | Maximum food serving temperature and time is 80°C for 1 hour. |

| | |
|---|---|
| **TRANSPORTATION & STORAGE CONDITIONS:** | To be transported and stored in shipping, 5layers, corrugated cartons and inner bags. Storage in room temperature provides protection from direct exposure to sun, heat and safety from moisture in dry and well-ventilated conditions. Long-term safety of the food in contact is the responsibility of the food manufacturer. |

Our supplier is a global packaging manufacturer with a strong focus on quality and safety. This information sheet is intended to provide you with an assurance for our commitment to food safety, and our compliance with the relevant legislation.

As per our supplier's statement the intended use of the above products precludes the transport of substances in food, in such quantities that could endanger human health and cause unacceptable changes in the composition of food or alter their organoleptic characteristics.

The recipient of the above products is obliged to examine the conformity of his products in case he intervenes in any way in the products of the Manufacturer.

This declaration is valid only for the above noted products supplied by INTERTAN S.A.

According to this regulation, the product is suitable for the usage noted above. The product is not recommended for uses other than those specified above, and it is the responsibility of the user of the product to determine if the product is suitable for use within this scope of the directives.
This declaration is valid unless any change in the relevant legislation arises or in the raw materials used in the production process of the products of the Manufacturing Company.
This Declaration of Conformity is issued pursuant to Article 16 of Regulation 1935/2004.
INTERTAN S.A. does not manufacture this article. The declaration was issued based on the declarations of producers, on test results and producers of raw materials used in production. Raw material specifications are important documentation as part of the above compliance. Commercially in commercially sensitive information is our policy not to provide these to customers or consumers. In line with the regulatory requirements of EC these documents may be available to competent authorities as required under statutory law. The test reports, when requested, are provided as
